

# ZEPPELIN'S GREAT AIRSHIP WRECKED

Lies Tattered and Torn on the  
Tree Tops of the Teuto-  
burgian Forest.

PASSENGERS ALL ESCAPED.

Met High Winds, One Motor Refused  
To Work, Others Gave Insufficient  
Power, Balloon Drifted.

Germany, June 28.—  
Count Zeppelin's passenger airship  
Deutschland, the greatest of all the  
famous aeronauts' models, lies to-  
night in the Teutoburgian forest,  
pierced by pine trees, a mass of de-  
scribed silk and twisted aluminum. The  
struck the pines after a wild contest  
with a storm, escaped uninjured,  
climbing down from the wreck on a  
rope ladder.

Herr Coleman, general manager of  
the new airship company, Chief En-  
gineer Duers of the Zeppelin company,  
and Capt. Wanneberg, who had  
charge of the crew of 18 and 29 pas-  
sengers, sailed from Dusseldorf at  
10 o'clock this morning for a three-  
hour excursion.

The objective point was Dortmund,  
about 35 miles from Dusseldorf, but  
a high head of wind prevailed and  
an effort was made to reach Hün-  
der, a garrison town, so that a landing  
might be made on the parade grounds  
with the aid of the soldiers. It was  
estimated that it would require a large  
number of men to hold the vast con-

No living man can make  
something from nothing.  
Neither can any woman.  
When a woman makes  
bread she must have the  
right materials. Flour is  
the most important, and  
it must be the right kind.

**Husler's Flour**  
is the  
RIGHT KIND!  
Makes Good Bread

trivance of silk and metal against  
the wind.

## MOTOR WENT WRONG.

In the high wind one of the motors  
refused to work and the other two  
did not give sufficient power to make  
any headway in the gale. The airship  
drifted, swaying in the violent gusts  
and sometimes leaning to an angle of  
40 degrees. All the while the engine-  
men were at work repairing the dis-  
abled motor. When this was done all  
four screws were driven at their full  
power. Under normal conditions, the  
engines were capable of driving the  
airship at a speed of 40 miles an hour,  
but the helmsman was unable to keep  
his course and the great craft was  
swung about at the mercy of the  
winds.

Colemann did not dare to come  
about for fear of overturning and de-  
cided to drift with the gale toward  
Osnabrück, also a garrison station. It

he missed that he expected to con-  
tinue to Senne.  
Suddenly he perceived a whirlwind  
coming, and ascended to a height of  
nearly 1,000 feet to avoid the center  
of it. With the wind came a  
heavy downpour of rain. After half  
an hour the Deutschland came down  
to permit observations, and it was seen  
that the Teutoburgian forest lay below.  
The forward motor stopped again, and  
Colemann sent five of the correspond-  
ents to the aft gondola to balance the  
vessel.

## DEUTSCHLAND SANK RAPIDLY.

The Deutschland sank rapidly, hav-  
ing lost much gas in the high altitude,  
and dragged along the top of the dense  
forest. A heavy branch of a tree  
broke through the bottom of the cab-  
in, amidships, throwing two of the  
guests of the floor. Other branches  
flipped through the gas compartments  
and the whole great structure settled  
down 30 or 40 feet from the ground.  
"It is not the fault of the Zeppelin  
system," exclaimed Herr Coleman,  
"that is all right. It is our own fault  
if our benzine ran out."

The airship, for which Herr Cole-  
mann's company had just paid \$137,-  
500, looked like a wreck. The frames  
were broken, but the motors were not  
damaged. The silk was ripped and  
had fallen in a torn mass on the  
tops of the trees.  
Reports of disaster, explosion and  
death were widely spread. A party  
of officers and surgeons came by au-  
tomobile from Iburg and the district  
governor and his wife arrived at the  
scene within half an hour by special  
train. A company of infantry was sent  
from Osnabrück, and picketed the  
wreckage.

The disaster occurred at half-past  
five o'clock this Sunday. Early part  
of the journey the airship main-  
tained an altitude of about 500  
feet, and the passengers enjoyed the  
new sensation, expressed contempt for  
the train rumbling down below and  
spoke of automobiles as out of date.

Chamberlain's Stomach and Liver  
Tablets will brace up the nerves, ban-  
ish sick headaches, prevent depend-  
ency and invigorate the whole system.  
Sold by all dealers.

Bathing at Saltair will cure any ill.

## ZEPPELIN PRELIMINARY NORTH POLE EXPEDITION

Kiel, June 28.—The steamship Mainz,  
which will proceed on Sunday for  
Spitzbergen islands, carrying Count  
Zeppelin's preliminary north pole ex-  
pedition, anchored alongside the im-  
perial yacht Hohenzollern today and  
was inspected by Emperor William.

It is planned to erect a dirigible bal-  
loon house at Spitzbergen and Capt.  
Lau will investigate the possibilities  
of an air route to the north pole.  
The party includes Prince Henry of  
Prussia, Professors Erick von Dry-  
kalski and Reich, the oceanographers;  
Prof. Minch of the Technical college  
of Charlottenburg, who will sail at  
twilight; Count Seditz and Trutzsch-  
ler, the zoologist; and Prof. M. Her-  
hesell of the University of Strasburg,  
who will make a study of atmospheric  
currents.

## STRAPPED IN ELECTRIC CHAIR, REPRIEVE CAME

Trenton, N. J., June 28.—With less  
than half a minute to spare, Arthur  
Rose was saved from the electric chair  
by a stay signed by Judge Min-  
turn on a moving train and thrown  
out the window to the condemned  
man's lawyer.

Rose was strapped in the chair and  
the electrician was waiting his hand  
on the switch for the second signal  
to send 2,100 volts through the body  
of the wife murderer when the frantic  
cry, "Stop! Stop! A stay!" rang  
through the death chamber.

## DOCTORS' PRESCRIPTIONS.

It has been proved over and over  
again that the doctors of this country  
freely prescribe proprietary medicines  
in Latin for their patients until they  
are advertised to the public, after  
which time they consider it a duty to  
immediately condemn the very same  
medicine, not because the preparation  
is any less valuable, but because it is  
not "ethical" to prescribe an adver-  
tised medicine. There are, however,  
many physicians of recognized stand-  
ing, broad-minded and successful  
enough to continue to prescribe such  
standard remedies as Lydia E. Pink-  
ham's Vegetable Compound, which  
they know to be good.

Feeling bad? Bathe at Saltair.

## PAYNE-ALDRICH BILL DEFENDED BY LODGE

Somerville, Mass., June 28.—Declaring  
that he believes the Payne-Aldrich  
tariff bill as good a bill as could be  
made "under a crude and un-  
scientific method," and urging the  
voters to await the result of the in-  
vestigations of the tariff board rather  
than put the Democrats in power, Sen-  
ator Henry Cabot Lodge addressed a  
large Republican rally here tonight.  
Senator Lodge said, in part:  
"The Democrats ask you to put them  
in power, that they may enter a com-  
plete revision of the entire tariff,  
throwing business into confusion and  
suspense. The Republican party, which  
is quite aware that no tariff is perma-  
nent, asks you to await the informa-  
tion of the tariff board so that when  
we revise our schedule or all the  
schedules we may do it intelligently  
and scientifically, and not by old  
and wrong methods."  
Congressman Longworth lauded the  
work of the Congress just closed.  
"The pledges made by the Republi-  
can party are now the laws of the  
land," he said, "and there is no  
above all others who is entitled to  
the credit for this, and that is William  
Howard Taft, president of the United  
States."

Lame shoulder is almost invariably  
caused by rheumatism of the muscles  
and yields quickly to the free applica-  
tion of Chamberlain's Liniment. This  
liniment is not only prompt and ef-  
fectual, but in no way disagreeable to  
use. Sold by all dealers.

New pier to shallow water, depth  
2 1/2 to 6 feet, Saltair.

## UNIVERSITY OF MICHIGAN.

Selects H. B. Hutchins as President to  
Succeed Dr. James B. Angel.

Ann Arbor, June 28.—Henry Burns  
Hutchins was selected president of the  
University of Michigan tonight to suc-  
ceed Dr. James B. Angel.

President Hutchins was born in Lon-  
don, N. H., April 8, 1847. He received  
his early education at the New Hamp-  
shire and Vermont conference seminaries  
and at Wesleyan university, Mid-  
dletown, Conn.

In 1871 he was graduated from the  
University of Michigan with the de-  
gree of bachelor of philosophy and  
after teaching in public schools for a  
year he returned to Michigan as as-  
sistant professor of history and phi-  
losophy. In 1884, after having practiced law  
for a number of years, he was elected  
Jay professor of law at Michigan. He  
was appointed acting president in  
June, 1909, and took up active duties  
of the office last October, at the same  
time continuing his work as dean of  
the law department.

SOLD BY GROCERS EVERYWHERE

## CROP CONDITIONS ARE GENERALLY SATISFACTORY

Washington, June 28.—Good crop-  
growing weather throughout the coun-  
try prevailed during the week ending  
yesterday, according to the weekly  
weather bulletin of the department of  
agriculture. It says:

"In the states of the spring wheat  
sections improvement is due to timely  
rain, that occurred in the more south-  
ern portions of the district. High tem-  
peratures are again prevailing. No  
rainfall has occurred over the more  
northern portions, especially of North  
Dakota and the northern portions of  
Minnesota and Wisconsin. Rain in  
abundance is needed."

"Some good rains occurred in the  
western portions of the great plains  
states, but it is generally becoming too  
dry along the entire slope of the Rocky  
mountains. To the west of the Rockies  
temperatures were generally favorable,  
but it is becoming very dry on the  
ranges, especially in the central and  
southern portions, where the rainfall  
has been unusually deficient, and much  
damage has resulted. Irrigation water  
is holding out well in the northern  
portions, but in the central and south-  
ern sections the streams are getting  
low."

## COLUMBIA CONSERVATORY OF MUSIC.

520-531 Constitution Building.  
New Class begins June 15th. Call  
phone or write. Bell 2105. Ind. 928.

## DEMOCRATIC FEDERATION OF THE UNITED STATES

Washington, June 28.—The Demo-  
cratic Federation of the United States of  
America has been launched, the central idea  
of which, according to the official pro-  
gram, is "a federation of organi-  
zations throughout the country of Demo-  
crats who shall stand for the needed  
improvements in the system of party  
government and other important issues."  
One of its purposes will be to select  
a host of states and in the nation are then  
to be systematically questioned on these  
issues and their replies published.

Among the Democrats who have origi-  
nated this movement are Senators Owen  
of Oklahoma, Newlands of Nevada, and  
Chamberlain of Oregon; former Vice  
President Adlai Stevenson of Illinois;  
20 members of Congress; Democratic  
editors and others prominent in the  
party. George H. Shibley of the District  
of Columbia is secretary of the fed-  
eration.

Chamberlain's Cough Remedy is  
sold on a guarantee that if you are  
not satisfied after using two-thirds of a  
bottle according to directions, your  
money will be refunded. It is up to  
you to try. Sold by all dealers.

Unlimited accommodations for  
bathing at Saltair, 1,100 rooms, 5,000  
suits.

Pure Drugs and Prescriptions our  
specialty. Halliday Drug Company.

piano room. Private trackage. Both phones 2823.

## Reservations Should be Made Now for Cabin Accommo- dations for the Los Angeles Examiner's Tour of the Orient

The Los Angeles Examiner, responding to requests  
from Japanese, Chinese and Philippine ports, and sugges-  
tions from prominent Pacific Coast residents, an-  
nounced some weeks ago that a tour in the Orient had  
been arranged. This tour, it is explained, had the two-  
fold purpose of developing relations between the Orient  
and the United States and furnishing to desirable per-  
sons of this country an unexampled opportunity of  
studying the people of the important Eastern ports at  
close range. It was also stated at the time this an-  
nouncement was made that "unusual opportunities for  
sight-seeing through official recognition of the impor-  
tance of the party" would be given those making the  
tour. The first-class accommodations of the magnificent  
Pacific Mail Steamship Mongolia, 27,000 tons, for the  
sailing of August 9 from San Francisco, were secured.  
The return date is fixed as October 18. Since the date  
of the original announcement, everything pertaining to  
the arrangement of the trip has progressed most satis-  
factorily. Both in the Orient and in this country the  
purpose underlying the tour has been appreciated and  
commended. From Honolulu and Manila and Japanese  
and Chinese officials word has been received that pre-  
parations of an unusual character for welcoming the  
American visitors are under way. Some of the most  
eminent citizens of the Southwest has booked passage  
for themselves and their families on this trip and some  
distinguished persons in New England and New York  
and the Middle West have also requested the privilege of  
accompanying the party. These requests have been  
granted. The pressure from the East has been unex-  
pectedly great. The opportunity for residents of the  
Northwest to avail themselves of the unusual privileges  
involved is being held open in their interest and in the  
interest of this region. The rate for the complete tour  
has been fixed at \$525. This includes every necessary  
expense of a high-class trip—first-class steamship, rail-  
way and hotel accommodations, guides, interpreters,  
carriages, automobiles, jinrikishas, sedan chairs, steam  
launches and all expenses of side trips. The tour direc-  
tor will be happy to care for mail bookings. Address  
or call on

## Dr. Martel's Female Pills.

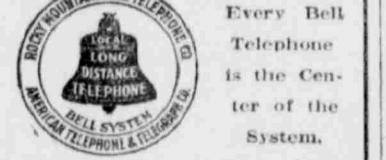

17 Years The Standard.

Prescribed and recommended for wom-  
en's ailments, a scientifically prepa-  
red remedy of proven worth. The result  
from their use is quick and permanent.  
For sale at all drug stores.

## Now Adays

In preparing for a  
journey the telephone  
performs a great vari-  
ety of services. Re-  
servations are made,  
last directions are  
given, goody-byes are  
said over the wire.

The Long Distance  
Service of the Bell  
system is of special  
value to the traveller.  
Sometimes a Bell  
Telephone makes a  
trip unnecessary;  
sometimes it con-  
vinces him that a trip  
would be profitable.  
Wherever he goes,  
he feels the use of  
universal service, and  
that is Bell service.

## PINGREE OPENING JULY 2nd
